## Overlay Information and Usage

---

**Overlay is specially formulated to create a new, workable, durable surface over your existing concrete slab.**

**Overlay can be colored using our Integral Color Chart or stained using our distinctive line of true Acid Stains.**

**Use Overlay to repair and resurface cracks in your tired concrete slab.**

**Direct Colors Complete Overlay is available in all the colors on this color chart.**

**We stand behind all our products and warranty you will receive the highest quality products we can offer.**

**Please contact us for more information pertaining to mixing instructions and detailed technical data.**

## Integral Color Information and Usage

---

**The colors in this chart were mixed with 94 pound bags of White Portland Cement.**

**In order to achieve these vibrant colors, it is best to use our Integral Color Project Calculator located at [www.DirectColors.com](http://www.DirectColors.com).**

**There, you will find the exact amount of pigment you will need for any project you have.**

**Our Integral Colors are designed to give your concrete slab definition and beauty.**

**Contact our Decorative Concrete Specialists for more information on our Integral Colors and detailed technical data.**

**All our colors are available in any quantity. For quantities larger than 500 pounds, please place your order at least 5 days in advance.**

OVERLAY DISCLAIMER: The Direct Colors Complete Overlay mix, proprietary products, is warranted to be of uniform quality within manufacturing tolerances. Since control is not exercised or implied, is made as to the effects of such use. Seller's and manufacturer's obligation under this warranty shall be limited to refunding the purchase price of that portion of the material proven to be defective. The user assumes all other risks and liabilities resulting from use of this product.

INTEGRAL COLOR DISCLAIMER: Because the conditions of use and application of our products are beyond the control of Direct Colors Inc., Direct Colors makes no warranty regarding workmanship and other variables that do not involve the performance of our pigments. Buyer's sole remedy shall be the purchase price paid by the user or buyer for the quantity of the Direct Colors product involved. All colors represented on these color charts are actual photographs of integrally colored concrete samples using Direct Colors pigments. Differences in type and even brand of cement can and will influence the final color appearance. For best results, conduct a sample pour using the exact components involved in the actual pour.
